P - Parthenogenic Stem Cells
N - Neural Stem Cells
PL - Placental Stem Cells
C - Cord Blood Stem Cells
M - Mesenchymal Stem Cells
MY-myoblast stem cells extracted from muscle
iPS - Induced pluripotent stem cells
L - Liver stem cells
ERC - Endometrial Regenerative Cells (ERC) from menstrual blood
VSEL - very small embryonic-like stem cells found in bone marrow
SCNT - Somatic Cell Nuclear Transfer, a laboratory technique for creating a clonal embryo
ASC - placental-derived adherent stromal cell
